Education

Editor-in-Chief: Zenon J. Pudlowski
UNESCO International Centre for Engineering Education (UICEE)
Monash University, Melbourne 3800, Australia

UICEE Partners

AGH University of Science and
Technology, Kraków, Poland

Anna University
Chennai, India

Caledonian College of Engineering
Muscat, Oman

East China University of Science &
Technology, Shanghai, PRC

Gdynia Maritime University
Gdynia, Poland

Higher Institute of Engineering
Hoon, Libya

Hochschule Wismar – University of
Technology, Business & Design
Wismar, Germany

Liverpool John Moores University
Liverpool, England, UK

Lucian Blaga University of Sibiu
Sibiu, Romania

National Changhua University of
Education, Changhua, Taiwan

Polytechnic University
New York, USA

Silesian University of Technology
Gliwice, Poland

Technologie- u. Gewerbezentrum
e.V. (TGZ) - Technology and
Commercial Centre
Schwerin-Wismar, Germany

Tomsk Polytechnic University
Tomsk, Russia

University of Science &
Technology Houari Boumediene
Algiers, Algeria

Vilnius Gediminas Technical
University, Vilnius, Lithuania

Papers published in the World Transactions have undergone a formal process of peer review by international referees.

This Journal is copyright. Apart from any fair dealing for the purpose of private study, research, criticism or review as permitted under the Copyright Act, no part may be reproduced by any process without the written permission of the publisher.

Responsibility for the contents of these articles rests upon the authors and not the publisher. Data presented and conclusions developed by the authors are for information only and are not intended for use without independent substantiating investigations on the part of the potential user.

Contents

Z.J. Pudlowski	Editorial	5
R.B. Ward	Educating – risk	7
F. Alam, E. Dilla, A. Subic & J. Tu	A three-step teaching and learning method in laboratory experiments for a thermal fluids course	13
K-W. Mui, L-T. Wong & W-Y. Kam	Evaluation of the assessment weightings for individual outcome-based projects by final year engineering undergraduates	17
Y-C. Chen, H-N. Chung & S-N. Liou	An empirical study of Chinese leadership in vocational high schools: the relationships between principals' leadership behaviours and teachers' organisational commitment	21
R.L. Williams II, X. He, T. Franklin & S. Wang	Haptics-augmented engineering mechanics educational tools	27
H-C. Hsiao & W-C. Chou	Using biomimetic design in a product design course	31
B. Sukumaran, Y. Mehta, T. Bryant, R. D'Intino, A. Marchese, J. Everett & Z. Gephardt	Generating entrepreneurship opportunities for the developing world through the engineering curriculum	37
J.L. Johrendt & D.O. Northwood, C.U. Chisholm & M. Blair	Facets of experiential learning in engineering	41
D.M. Boyajian, S-E. Chen & D.C. Weggel	Perspectives on instructional methods from the ExCEED Teaching Workshop	47
T-C. Chang, C-L. Chang, Y. Su & F-S. Chen	Enhancing the English learning effectiveness of 8 th grade students using an online interactive English system	53
R.A. Stewart	Evaluating the self-directed learning readiness of engineering undergraduates: a necessary precursor to project-based learning	59
M.V. Lanka	A framework for identifying performance indicators of effective science process skills teaching in Botswana senior secondary physics	63
A. Mohtar, Z. Nedic & J. Machotka	Digitally controlled resistors for the remote laboratory <i>NetLab</i>	67
J.S. Tate & V. Sriraman	A project-based approach to the teaching of Computer Aided Engineering to a multidisciplinary student population	71
L.G. Boussiakou & E.C. Kalkani	Restructuring engineering courses with the help of educational theories	75
S-E. Chen, D.C. Weggel & D.M. Boyajian	Forensic education through causality quantification – a shift of paradigm	83
K.R. Jacobs	Diversity in educators' personal and cultural worldviews: the South African context for science and technology pedagogy	87
M.N. Gömleksiz	An evaluation of engineering students' perceptions towards the English language teaching-learning environment at engineering faculties in Turkey: the case of Firat, Ataturk, Inonu and Dicle Universities	91
J. Njock Libii	The determination of the aerodynamic drag force on a parachute	97
J. Zhao	The design of a low-cost portable Sensor Configuration Unit (SCU) for engineering measurements with various sensors	101
C-Y. Chen	A novel cooperative education programme to approaching the <i>last mile</i> : an academic perspective	105

K.J. McDermott	Enhancing the work readiness of engineering graduates	113
X. Wang	Augmented reality potentials in design curriculum	119
Y-J. Lee, C-T. Tung & K-S. Kao	The relationship between knowledge management and instructional innovative ability: empirical research from teaching staff at Taiwanese technological and vocational universities	123
K.W.M. Siu	Research for users: critical knowledge and experience for design and engineering students	129
Y. Li	Teaching embedded systems using a modular-approach microcontroller training kit	135
A.R.N. Molson	Expanding the integration of technological education and industry through research into developed cost forecasting and control strategies for contractors with the incorporation of econometric models	139
S-J Lou, Y-S. Yang, R-C. Shih & K-H. Tseng	A study on the knowledge sharing behaviour of information management instructors at technological universities in Taiwan	143
D.W.S. Tai, I.Y-W. Hsiao, T.P-H. Li & Y-J. Shu	An exploration of the relationship between the work-family demands and work-family conflict of teachers at science and technology universities in Taiwan	149
K. Jitgarun, S. Srikasem & V. Jittham	A comparison of the electrical energy consumption of commercial refrigerated cabinets using temperature control by a microcontroller and thermostat	153
S. Khoshaba	A comparison of the gear calculation process according to Swedish and American textbooks for higher education	157
M.L. Molefe	The attainment of technological skills processes and learning outcomes in a Science Talent Quest project comparing two model boats	165
D.C. Weggel, D.M. Boyajian & S-E. Chen	Modelling structures as systems of springs	169
F.S. Chen, Y.M. Lin & M.H. Liu	The development of an inventory to assess the problem-solving attitude of industrial high school students	173
V.M. Spathopoulos	The use of online teaching in an aircraft technology course	177
S. Dahiya, V.K.P. Wani & T.K. Garg	Fostering entrepreneurial engineers for sustainable industrial growth in the small-scale sector in India	181
W-J. Shyr	A photovoltaic systems laboratory activity plan for Taiwanese senior high schools	185
X-j. Tan, J. Li & C. Liu	A video-based real-time vehicle detection method by classified background learning	189
J. Zhou, L. Yang, Y. Xu & C. Liu	The economic performance of transportation infrastructure: an empirical study on the recent development of China	193
K.N. Le, V.W.Y. Tam & F. Yi	Women in engineering: a general perspective	199
