Papers published in the World Transactions have undergone a formal process of peer review by international referees.

This Journal is copyright. Apart from any fair dealing for the purpose of private study, research, criticism or review as permitted under the Copyright Act, no part may be reproduced by any process without the written permission of the publisher.

Responsibility for the contents of these articles rests upon the authors and not the publisher. Data presented and conclusions developed by the authors are for information only and are not intended for use without independent substantiating investigations on the part of the potential user.

Contents

Z.J. Pudlowski	Editorial	5
D.E. Jansen	Intercultural communication in engineering: a research programme to investigate the cultural influences in the negotiation of engineering projects	7
G.I. Swan, D. Veal & S.P. Maj	Measurement and observation inside a PC	13
A. Olszewski & Z.J. Pudlowski	Urban Design and Education Programme: its significance and achievements as they relate to local and international frameworks	17
M.J. Riemer	Investigation into the development of English and communication skills for the modern engineer: a research scheme	23
F.K. Fink	Problem-Based Learning in engineering education: a catalyst for regional industrial development	29
S. Grünwald & Z.J. Pudlowski	Double degree programmes in engineering with business, commerce, economics and related fields offered by Australian universities	33
Z. Mbanguta	Towards a new engineering education policy for South African Further Education and Training (FET) colleges: easy articulation to universities and technikons and recognition by the Engineering Professional Council of South Africa	39
M.S. Zywno	Attitudes of engineering faculty towards technology-assisted instruction - a polemic	47
D.Q. Nguyen	Searching for a global model for environmental engineering education	51
B.C. Pochopień, J. Barglik & R. Sosnowski	An American-Polish postgraduate studies training programme for top managers	57
R.K. Duggins	Financial support for technology education	61
A.C.C. Tan, G.D. Paterson, J. Mathew & M. Dunbabin	Visualisation of vibration mode shapes to assist students in the learning of mechanical vibrations	65
A.S. Patil & Z.J. Pudlowski	The design and development of interactive Web pages using the HTML editor for computer-based comprehensive self-study procedures in basic electrical engineering	69
B.K. Temple & C.U. Chisholm	The role of entrepreneurship in the engineering curriculum	75
J.C. Burguillo, M.J. Fernández, F. Buendía & J.V. Benlloch	Experiences with Internet-based distance education	81
R. Devon & J. Liu	Global change and the management of engineering education	85
K-C. Chu & P. Lai	How can engineering students' problem solving skills be improved?	91
E. Kukla, N.T. Nguyen & J. Sobecki	The consensus-based tutoring strategy selection in CAL systems	95
U. Vandebona & M.M. Attard	A Problem-Based Learning approach in a civil engineering curriculum	99
K. Al-Reshaid & N. Kartam	Guidelines for instructors on Web-based construction education	103
A.V. Valiulis	Access of disabled people to engineering education	107

J. Machotka, Z. Nedic & V. Nedic	Changes and challenges brought about by the electronic environment in engineering education	111
R.B. Ward	The adventure of engineering	115
D-S. Wang & B-J. Wang	The effects of engineering education on earnings in Taiwan	121
V.P. Dorweiler & M. Yakhou	Business education reforming engineering education: a multidisciplinary approach	125
M.T-L. Liang & J.Y-G. Chao	Investigation into the Internet literacy of elementary and junior high school teachers in Taiwan	129
S.C. Venkateswarlu	The management of engineering education analogous to the industry	133
W. Zieliński	The application of the Bologna Declaration in Polish technical universities	137
E. İnelmen	Re-inventing engineering education: a new challenge	141
A. Butare & A. Kimaro	Anaerobic technology for toilet wastes management: the case study of the Cyangugu pilot project	147
